EDUCATION

VEER KUNWAR SINGH UNIVERSITY

Bsc. in Chemistry
Dec 2022 | Arrah, Bihar
67 percentile

BSEB BOARD

Intermediate in Science
May 2018 | Patna, Bihar
55 percentile

CBSE BOARD

10th Standard
May 2016 | Aurangabad, Bihar
10 CGPA

COURSEWORK

AT CODING NINJAS

• Introduction to Java *Certificate link*
• Data Structures and Algorithm in Java *Certificate link*
• Full Stack Web Development *Certificate link*

SKILLS

TECHNICAL SKILLS

Language :-
C • Java • Javascript • Typescript

Web Technologies :-
Node Js • Express Js • React Js • MySQL • MongoDB • Postman • Next Js • Git • HTML5 • CSS3 • OOPs • Bootstrap • Redux • Tailwind CSS • Prisma(ORM)

Code Editor or IDE:-
VSCode • Eclipse

Operating Systems :-
Window • Mac

Other:-
• Debugging • Responsive Design • Canva • Figma

NON-TECHNICAL SKILLS

• Problem-solving • Teamwork • Adaptability • Time management

PROFILE

FULL STACK DEVELOPER

Enthusiastic and motivated full-stack developer with a strong foundation in frontend and backend technologies. Skilled in HTML5, CSS3, JavaScript (ES6), and eager to leverage newly acquired skills in React and Node.js to create innovative and user-centric web applications. I am a quick learner with a passion for problem-solving, collaborating effectively in teams, and adapting to evolving industry trends.

PROJECT

MESSENGER APP   *Source Code   Live link*

- **Tech Stack** :- React Js, Next Js, Tailwind CSS, MongoDB Atlas, Prisma, Pusher, NextAuth, OAuth (Google, GitHub)
- Implemented real-time messaging functionality using Pusher, enabling instant message updates and a seamless chat experience.
- Utilized MongoDB with Prisma ORM to efficiently manage and store user data, ensuring scalability and optimal performance.
- Integrated NextAuth for a secure and flexible authentication system. Users can log in using Google, GitHub, or custom authentication, enhancing user accessibility.

MUSIC PLAYER   *Source Code   Live link*

- **Tech Stack** :- Reactjs , RapidAPI (Shazam core API), Redux, Tailwind CSS
- Implemented features such as play, pause, skip, and volume control for seamless user experience.
- Implemented Redux for efficient state management, enabling seamless communication between components and ensuring consistent playback control and UI updates.
- This Project is Demonstrating my skills in frontend development, state management, and data integration, the project underscores my ability to craft responsive, interactive web apps and seamlessly integrate third-party APIs for enhanced user engagement.

AIRBNB CLONE   *Source Code   Live link*

- **Tech Stack** :- Next JS, React JS, Prisma, TailwindCSS, Cloudinary, Oauth, MongoDB Atlas.
- Leveraged Next.js for server-side rendering and Utilized React for modular and interactive user interfaces.
- Integrated Next-Auth with Prisma Adapter for secure authentication. Integrated Next-Cloudinary for efficient image storage.
- Employed MongoDB over Prisma ORM for secure data storage.
- Demonstrates proficiency in building full-stack web applications using Next.js and Typescript.
